NEW PRODUCT ANNOUNCEMENT!

CMOR **Evolution**

The CMOR **Evolution** is a professional full function external dome with built-in IR providing up to 200m diameter night-time coverage and a choice of zoom up to 36:1

New features include:

- Faster pan: 360° per second pan
- Finer control: 0.02° resolution
- Lower tracking speed: 0.02° per second
- More responsive and tighter control
- 18:1, 26:1 and 36:1 zoom options (single and dual cameras)
- Semi-Covert (830nm) and covert (940nm) IR options
- Auto protocol detection: no DIP setting
- Protocols: BBV (coax), Pelco-D, Pelco-P, Vista, Videoswitch
- New Pan/Tilt/Zoom point-and-click commands
- Fewer moving parts for increased reliability
- Improved sealing system enhances weather-proofing
- Substantially lower prices
- Multiple-sourcing via all major distributors

CMOR **Evolution-X**

Videoswitch now have a new low-cost non-IR version of the CMOR **Evolution**. These models suit all installations requiring conventional high performance non-IR domes.

New features include:

- Professional full function external dome without IR
- All the same features and benefits as the IR models
- Competitive with other leading industry standard domes

Manufactured exclusively by Videoswitch in the UK
ISO9000 certified
